#### WE HAVE NO TIME TO WASTE

The subject of this letter-report volume of retail sales! has been on my mind for some two months. About then I passed through a former busy neighborhood shopping center where I used to live and noticed that it was completely demoralized with respect to doing business,-nothing but many empty stores-because the business district had moved elsewhere. And then just recently I visited Levittown, Long Island, and saw a most beautiful shopping center. These me to action and this report! I visited Levittown on Wednesday quite a conversation and I received afternoon, January 23rd, and saw a very definite statement from him the street crowded with shoppers. I saw stores of the finest type, mostly nationally known chains, and year ago. Levittown, Long Island. twp., for divorce. They were marparking space facilities for 4,000 automobiles.

In the last few months I have been doing a great deal of thinking with us if we feel it is necessary Maid Creamery, here. about the problem of Levittown, to have him. Penna., and a mile-long shopping center opening in our midst,-just three miles from Bristol's Commercial Center. And the thinking has take to maintain our present commercial district.

This is a big program I am about to outline here, and one that requires action starting immediately. We have no time to waste in spite of the two years before the Levittown Shopping Center is a reality. This program will require the expenditure of perhaps ten to fifty thousand dollars for the planning alone and of course, this program calls for the co-operation of every civic-minded person in the community, the Chamber of Commerce, Borough Council and the Business Men's Associations.

I regret that some of this plan may offend some people but it is not my intention to hurt anyone.

This program represents my thoughts as to what we must do to from becoming a "dead" town.
